

PAMIBIA UNIVERSITY  
OF SCIENCE AND TECHNOLOGY

- Bushskies Aerial Photography & Aerial Solutions are Namibian owned companies.
- We partner with the Namibian University of Science and Technology's Agriculture and Natural Resources Science Faculty, which provides the very best in Namibian expertise on Wildlife Management and Conservation Research.
- Bushskies Aerial Photography makes use of a Cessna C182 and Jabiru J430, all aerial photography is done in-house. The team from the Namibian University of Science and Technology conducts ground counts in parallel to the aerial census.
- Bushskies Aerial Photography specializes in aerial surveys of large game reserves and national parks, farmland, mining areas, engineering projects and municipal areas and has completed more than 70 diverse projects to date.
- The aircraft are stationed at Eros Airport keeping mobilization time and costs to a minimum.
